Initial Approval Date: July 10, 2019

#### **CRITERIA FOR PRIOR AUTHORIZATION**

Juvenile Idiopathic Arthritis Agents

**BILLING CODE TYPE** For drug coverage and provider type information, see the KMAP Reference Codes webpage.

MANUAL GUIDELINES Prior authorization will be required for all current and future dose forms available. All

medication-specific criteria, including drug-specific indication, age, and dose for each agent is

defined in table 1 below.

Abatacept (Orencia®)

Adalimumab (Humira®, Amjevita™, Cyltezo™, Hyrimoz™)

Etanercept (Enbrel®, Erelzi™, Eticovo®)

Tocilizumab (Actemra®)

## **GENERAL CRITERIA FOR INITIAL PRIOR AUTHORIZATION:** (must meet all of the following)

- Must be approved for the indication, age, weight (if applicable), and not exceed dosing limits listed in Table 1.
- Must be prescribed by or in consultation with a rheumatologist.
- Patient must have had an adequate trial (at least 90 consecutive days) of or contraindication to methotrexate. If
  the patient has a contraindication to methotrexate, the patient must have an adequate trial of at least one other
  conventional therapy or contraindication to all conventional therapies listed in Table 2.<sup>1</sup>
- For all agents listed, the preferred PDL drug, if applicable, which covers this indication, is required unless the patient meets the non-preferred PDL PA criteria.
- Prescriber must provide the baseline of one of the following criteria:
  - Polyarticular Juvenile Idiopathic Arthritis (PJIA) with moderate to high disease activity, defined as:
    - Clinical Juvenile Disease Activity Score (cJADAS) score > 2.5.<sup>1</sup>
- For all requested biologics or janus kinase (JAK) inhibitors, patient must not be on another biologic or JAK inhibitor listed in Table 3. After discontinuing the current biologic or JAK inhibitor, the soonest that a new biologic or JAK inhibitor will be authorized is at the next scheduled dose.

**LENGTH OF APPROVAL (INITIAL):** 12 months

#### APPROVED PA Criteria

**CRITERIA FOR RENEWAL PRIOR AUTHORIZATION:** (must meet all of the following)

- Prescriber must provide the following response measure:
  - Low disease activity, defined as cJADAS-10 score  $\leq 2.5.^{1}$
- Must not exceed dosing limits listed in Table 1.
- For all requested biologics or janus kinase (JAK) inhibitors, patient must not be on another biologic or JAK inhibitor listed in Table 4. After discontinuing the current biologic or JAK inhibitor, the soonest that a new biologic or JAK inhibitor will be authorized is at the next scheduled dose.

**LENGTH OF APPROVAL (RENEWAL): 12 months** 

FOR DRUGS THAT HAVE A CURRENT PA REQUIREMENT, BUT NOT FOR THE NEWLY APPROVED INDICATIONS, FOR OTHER FDA-APPROVED INDICATIONS, AND FOR CHANGES TO AGE REQUIREMENTS NOT LISTED WITHIN THE PA CRITERIA:

• THE PA REQUEST WILL BE REVIEWED BASED UPON THE FOLLOWING PACKAGE INSERT INFORMATION: INDICATION, AGE, DOSE, AND ANY PRE-REQUISITE TREATMENT REQUIREMENTS FOR THAT INDICATION.

**LENGTH OF APPROVAL (INITIAL AND RENEWAL): 12 months**
